

OMA Designs — Website & CRM Guide

Everything the team needs to use the new website and lead system. **No passwords are in this document** — they are shared privately.

1. Two sites: Live and Test

	Live site	Test site
Link	interior-crm-taupe.vercel.app	Open test site
Who it's for	Real customers and the OMA team	Trying things out and checking changes
Data	Real customer enquiries	Sample data only (about 50 made-up leads)
New-lead alert emails	Sent to amank6787@gmail.com	Off — nothing is sent
Shows in Google	Yes	No
How to recognise it	Normal site	Yellow "TEST SITE" bar at the top of every page

Golden rule: never submit test enquiries on the Live site. They create real leads and send real alerts. Always test on the Test site.

Test site access: currently opens only for people signed in to the project's Vercel account. Public access for the owner is being switched on.

2. Customer pages (public — no login)

Page	Live link	Test link	What it does
Home	Open	Open	Services, recent work, process, contact
Start your project	Open	Open	5-step enquiry form (about 2 minutes)
Thank you	Shown after the form	Shown after the form	Confirms the enquiry and gives a reference number

Link for Instagram bio, ads and WhatsApp: interior-crm-taupe.vercel.app/start-project

3. Team pages (login required)

Sign in

Page	Live link	Test link
Sign in	Open	Open
Forgot password	Open	Open

The reset-password page opens from the reset email — you never visit it directly.

Ready to use

Page	Live link	Test link	What it's for
Dashboard	Open	Open	Today at a glance — new leads, hot leads, follow-ups due, recent enquiries
Leads	Open	Open	Every enquiry, with search and filters. Click a lead for full details, Call / WhatsApp / Email buttons, status, notes and follow-ups
Pipeline	Open	Open	Board view — drag leads between stages
Follow-ups	Open	Open	Calls and visits due today, overdue and upcoming
Customers	Open	Open	One profile per person, all their enquiries together

Coming later

Projects · Campaigns · Analytics · Users & Roles · Settings — the pages open but show "Planned".

4. Logins

Live site

Email	Role	Can do
amank6787@gmail.com	Super Admin	Everything
mgarg2121@gmail.com	Admin	Everything except creating other admins

Test site (sample data — separate passwords from Live)

Email	Role	Use it to see...
amank6787@gmail.com	Super Admin	Everything
admin@example.com	Admin	The admin view
manager@example.com	Sales Manager	Whole pipeline, assigning leads
sales1@example.com	Sales Executive	Only their own assigned leads
designer@example.com	Designer	Assigned leads, read-only on sales
viewer@example.com	Viewer	Read-only everything

Password tips

- Passwords are shared privately — never by email or group chat.
- Forgot your password? Use [Forgot password](#). *Until a custom domain is connected, the reset email only reaches amank6787@gmail.com.*

5. Lead stages

New → Contacted → Qualified → Consultation → Site visit → **Quotation** → **Design** → Negotiation → **Won / Lost** (or On hold)

Move a lead from its detail page (**Change status**) or by dragging it on the [Pipeline](#) board.

6. New-lead alerts (Live site only)

- Every enquiry emails amank6787@gmail.com within seconds.
- The email has **every detail** the customer entered — name, phone, location, property, areas, budget, timeline and notes — plus **Call**, **WhatsApp** and **Open in CRM** buttons.
- **Reply** in Gmail goes straight to the customer when they gave an email.
- Alerts come from `onboarding@resend.dev`. In Gmail, create a filter for that address → **Never send it to Spam**.

7. How changes go live

1. A change is made and appears on the **Test site** first.
2. Owner checks it on the Test site.
3. Once approved, it is published to the **Live site**.

Nothing reaches customers without being seen on the Test site first.

8. Current limits

Item	Status
Photo / document uploads	Off until cloud storage is set up
Website address	Temporary Vercel link — own domain to be connected later
WhatsApp alerts	Not yet — email only
Change-password screen	Not yet — use Forgot password
Phone / WhatsApp number on the site	Not shown yet (by choice)
Testimonials, own project photos	To be added — current photos are samples
